#Below are very basic scatterplot examples in R.
#Use the ggplot cheat sheet to create alternative plots
https://rstudio.com/wp-content/uploads/2015/03/ggplot2-cheatsheet.pdf

ggplot(DataSet) +
  geom_point(aes(x =Age, y = Price), color = "navy", alpha = 0.7)
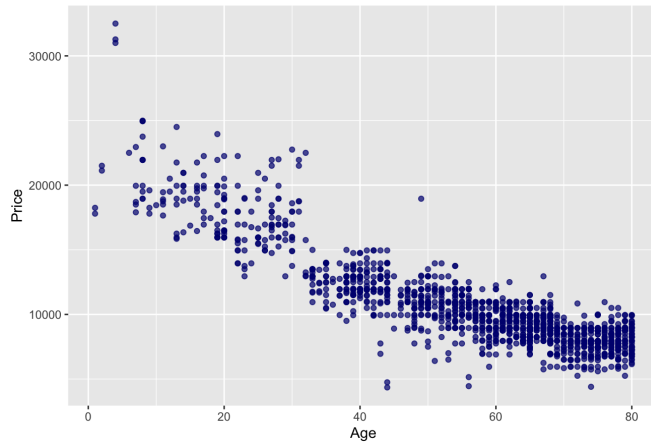

ggplot(DataSet) +
  geom_point(aes(x =HP, y = Price), color = "navy", alpha = 0.7)

ggplot(DataSet) +
  geom_point(aes(x =KM, y = Price), color = "navy", alpha = 0.7)
